# Black Light Unity

ÁREA: FÁBRICA DE SOFTWARE  
AÑO: 2019  
SECTOR: COMERCIO

## 🖥️ DESCRIPCIÓN

El desarrollo de este sitio web tiene como objetivo crear una plataforma eficiente y visualmente atractiva para la presentación de productos.

Nos enfocamos en ofrecer una experiencia de usuario sencilla y agradable, que permita a los clientes explorar fácilmente el catálogo. Buscamos facilitar la búsqueda, comparación y selección de productos a través de un diseño intuitivo, con información bien organizada y menús avanzados para mejorar la navegación.

# BLUprint

Wall Print

## Characteristics

- Material:** Textile fabric blacklight wall print
- Weight:** 7 grams per sq ft/ 75 per sq m
- Max. Print Width:** 59" / 1500 mm
- Certified fire resistant**

## Material Benefits

- Amazing image quality and fluorescence:** We can print any digital image up to 300 DPI and offer an ever growing selection of themes, as well as full custom design solutions.
- Durable, certified fire resistant material:** Design is imprinted into washable fabric polyester that can't be scratched or worn off.
- Fast and easy application:** Goes on like wallpaper with no paint fumes.
- No minimum purchase:** You can renovate within your budget, one wall at a time, without interrupting business.

# Installation

## Installation

1. When applying print, the surface should be smooth, sturdy, clean and dry for better results.
2. For brightest results the wall will be a lighter color (white being best, normal tone of wood and MDF is ok also).
3. Use standard wallpaper adhesive to stick print to the surface (e.g. ROMAN brand, PRO=543 UNIVERSAL). Apply adhesive to the wall first then put the wall cloth onto the wall. Use a hard card (or similar object) to make the wall cloth adhere smoothly to the surface (this is identical to applying conventional wallpaper).
4. If the print will be in an area that is exposed to a high level of contact (for example: in a lazer tag arena), you can use a tack or nail to affix the line of the fabric edge to the wall (the print can withstand persistent contact if properly adhered, however it is inevitable that it could peel slightly from the surface. Re-applying adhesive works fine also). You can also use a clear protector paint or similar sealant along the edges (please contact us for further application assistance).

# Looking for Party Room Ideas?

AUTHOR: Team BLU  
PUBLISHED ON: July 27, 2021  
PUBLISHED IN: Party room

Check out these blacklight party room concepts from our virtual Family Entertainment Center (FEC). We can trial design ideas using a 3D layout of your environment so you know how awesome it will look before we go to print. All we need are the height and length of each wall to get started!

P.S Don't forget the table covers!
